

The following publications from **Enzo Nastati** are available at Mark Moodie Publications (www.moodie.biz/enzobooks.html) and most are available as eBooks from www.considera.co.uk

1. **4 Aspects of the Agricultural Organism** - 53 pages Four (plus 1) sections discussing the various organs and levels of the agricultural organism. As far as I know it's the only work specifically on the subject and so I can claim for now that it is, in my opinion, by far the best.
2. **Basis of Biodynamics in 9 meetings** - 125 pages Nine meetings in which biodynamics was discussed. This is from the 1990's and because it was such early work it seems to be particularly accessible. This is a fundamental text like a primer.
3. **Commentary on Dr Rudolf Steiner's Agriculture Course** - 324 pages The 'proper book' going paragraph by paragraph through the Koberwitz course and offering clarifications and interpretations and developments on what Dr S gave the world in 1924.
4. **Agriculture Dossier** - 48 pages Results with pictures of the effects of the Homeodynamic method.
5. **Understanding and raising animals according to the Homeodynamic method** - 41 pages Most of Enzo's work concerns plants and soils so this is a bit of a diversion - but it's just as thoughtful and insightful as the other works. I was particularly interested in this because the early UK successes with Homeodynamics were with animals.
6. **The coming of the antichrist in spiritual science, scripture and prophecy** - 102 pages One of the spiritual scientific subjects and one I was a little bit more nervous about translating since it isn't as practical as the other books which work towards a better environment (my interest). But this is part of Enzo's (and RS's) world and for that, if no other reason, it is interesting.
7. **Apiculture and the Evolution of the Bee** - 80 pages Bees are in crisis and they are really really remarkable so something that honors both these facts and shows a non-polluting way forward struck me as requiring translation.
8. **Astronomical Agricultural Calendar** - 60 pages 6th year in English! Different from Thun and Kollerstrom and Keats and Old Moore! Why? Because this refers to the etheric cycle of the Earth and takes its basis from the Milky Way which is the mother of our zodiac - according to RS. The right use of the preparations is said to be necessary for these indications to kick in - see "Associating Plants with the Zodiac" at the bottom of this list.
9. **Cultivation of Cereals Using the Homeodynamic method** - 25 pages Another little gem - why are the grains curved as they are, what is the significance of the aristas. How do we deal with the issues these plants face ...??
10. **People of the Choice** - 164 pages Even the title of this one was contentious and hard to do. But I translated this in a few weeks whilst preparing Enzo's 2009 course and it's certainly very interesting. Enzo sees this as the basis for his recent.
11. **Spiritualisation of the Earth through Agriculture: The Christianisation of Nature** - 19 pages Interesting given that there is no mention of Christ in the agriculture course. Also hard to sell to standard agronomists!
12. **Growing in dry lands. Aridculture using the Homeodynamic method** - 108 pages What it says on the tin ... in a time when water is ever more scarce and damaged.
13. **The Etheric Cycle of the Earth** - 40 pages The life body of the Earth is inhaled and then exhaled in definite rhythms with which we can align ourselves to assist our crops. This could be said to be part of the theory that goes with the calendar and the holy nights work.
14. **Growing herbs According to the Homeodynamic Method** - 52 pages Interesting insights and practical suggestions for enhancing medicinal and culinary herbs.
15. **The Thirteen Holy Nights on the Physical, Etheric, Astral and Spiritual Planes** - 32 pages This was originally the 12 Holy Nights but if you take into account that the etheric 'day' starts at 3 pm you can see why there are 13 nights.
16. **Homeodynamic Cultivation Handbook** - 93 pages This is more towards the gardening end of Enzo's publications with details based on the crops rather than the sprays or the theory.
17. **Garden and greenhouse cultivation using the Homeodynamic method** - 58 pages More insights to augment the text above
18. **Introduction to the Homeodynamic Method of Agriculture** - 36 pages One of the basic texts covering a little of the history of this initiative and the early work that inspired it to continue. A good place to start.
19. **Fertilization Biological and Spiritual Or Ways to bring life to The Earth and Plants** - 40 pages Proper and appropriate manuring and composting, according to Dr. Steiner, is a way to deal with the vast majority of diseases. Here's a little to fill in the gaps in that statement.

The following publications from **Enzo Nastati** are available at Mark Moodie Publications (www.moodie.biz/enzobooks.html) and most are available as eBooks from www.considera.co.uk

21. **Foundations For A Development Of Potentisation** - 73 pages This is one of my real interests and so it was the first book of Enzo's that I published. Given that homeopathy - and BD less so - is considered bonkers, it is good to throw a little clear thinking at the issue.
22. **Principles of Growing Fruit Homeodynamically** - 59 pages For orchardists and other fruit-growers.
23. **The prayers of Christianity: The Lord's prayer, Hail Mary and Glory Be** - 48 pages Another more spiritual scientific text but so interesting about these Christian mantra. Exit dogmas stage left and enter a new science of these prayers.
24. **Understanding and Dealing With Pests: Pt 1 - Introduction and Pt 2 - Meditations** - 49 pages Great stuff. Real insights into the thinking behind pests and diseases and the way to approach them via potentised preparations and meditations.
25. **Pollution Remediation** - 36 pages Results with heavy metals and atrazine and salt and hydrocarbons ... etc - extraordinary to think this can be done.
26. **The Regeneration of Seeds and New Plants in the Light of Spiritual Science** - 154 pages One person said that some of this made her cry and I'm pretty sure she meant that it was so moving. What are we going to do to raise new plant strains that are true? Here's Enzo's answer.
27. **Associating plants with the zodiac** - 40 pages Because of the abuse we hand out to plants, their evolving selves have retreated, no longer recognizing their children after what we have done to them. How do we contact these essential and retreating parts of the plant? Read on ...
28. **Elemental Beings: Their origin, activities and transformation** - 40 pages The change of shift from the old elemental beings of the Father to the new elemental beings of the Son.... and the elemental spirits. What are they, where do they come from and what is our responsibility towards them?
29. **How to Cultivate Vines with the Homeodynamic Method** The grape vine is a plant that has fulfilled it's evolutionary mission but there are some things that can be done to mitigate the pests and diseases that beset this tired plant
30. **A Practical Guide to Anthroposophic Terminology From Adam to Zarathustra, a guide to some of the most common themes in Anthroposophy.**
31. **Freedom and Love** These are the two goals of our human evolution. We should know what the goal is if we want to aim consciously.
32. **Meteorology: Our Impact upon the Weather** It's a bold hypothesis - that we are in some way responsible for the weather. What is the thinking behind and the implication of that assertion?
33. **From Astrology to Astronomy** Within Us We are a microcosm in and of the macrocosm but we are also evolving. How does that work exactly?
34. **From the Healing of Raphael to the Healing of Michael** Raphael is the archangel of earthly life but the realm of Michael is cosmic life. One is regent of earthly healing but what is the role of Michael?
35. **Learning to Pray: A Road to Dialogue with God** What's difference between prayer, meditation and contemplation? Here are some thoughts.
36. **True, Good and Just: The Three Moral Ideals of Humanity** These are the ideals with which we can align our every action.
37. **The Modern Path of Initiation Through the Books of Form, Life and Consciousness** How does a modern person gain initiation in the right way? What is the role of form in this path?
38. **Accessing the Book of Form Through the Thoughts of Michael and the Force of Mary** The Archai/Archangel Michael and the cosmic pleroma known as Mary guide us through life after death and its equivalent in life - initiation.
39. **Spiritual Astronomy** All those lights in the night sky, tell stories. What story do they tell the modern student of spiritual science?

Also available from Mark Moodie publications (www.moodie.biz)

Homeopathy For Farm and Garden (First Edition) - Vaikunthanath Das Kaviraj -The first book on agrohomeopathy including materia medica and repertory

Hugo Erbe's New Biodynamic Preparations - Erbe et al -The story of and by one of the early pioneers who gave himself permission to develop Dr Steiner's agricultural indications.

Flowforms, Human Waste The Universe And Everything - Moodie- Sculptures for Water? Is there a story there? ..
